

UI/UX designer with 9 years in design — the last 3 on digital products across insurance, telemedicine, and DNA-testing.

I turn complex business constraints into clear, frictionless user journeys, and I work AI-first: using LLMs to map customer-journey edge cases and audit friction before the canvas — and agentic tools like Figma Make and Claude Code to prototype and ship. I designed and built my own portfolio end to end.

# Tom Griger

UI/UX Designer

## SKILLS

### UX & Systems Design

UX writing & microcopy,  
B2B2C Ecosystems,  
Conversion Optimization,  
Business-Centric Design

### UI & Visual Craft

High-Fidelity Prototyping,  
Visual Hierarchy,  
Interaction Design,  
Accessibility & localization sense,  
Design tokens & components

### AI-first & agentic workflow

LLMs (Claude, Gemini, ChatGPT)  
for edge-case mapping, friction  
audits & copy

Agentic AI — Figma Make, Claude  
Code, Cowork — to prototype  
& direct builds

## LANGUAGES

Slovak: Native C2

Czech: Near-native C2

English: Advanced C1

Polish: Intermediate B1

German: Elementary A2

## EXPERIENCE

UI/UX Designer / **diagnose.me** 03/2023 - 05/2026

Full-time, hybrid • Bratislava, SK

Sole in-house designer for a platform operating in 25+ languages across 19 countries. Designed product UI, user flows, and prototypes for new features — translating multi-party B2B2C business constraints into usable interfaces — and produced the team's Figma business presentations and marketing assets.

[See my recent work](#)

UI/UX Designer & Front-End / **tg** 05/2026 - present

Self-directed product

Designed, shipped, and iterated my live portfolio end to end — an AI-directed front-end build (responsive; light/dark; accessibility-minded), refined from real visitor analytics. Proof I take an idea all the way to a working product — not just a mockup.

[See the process](#)

Graphic Designer / **positive** 2017 - 2022

Contractor, hybrid • Bratislava, SK

Web, app, and print design: UI layouts, brand identity, magazine layout (Financial Report), banners, newsletters, social media, photo editing; CMS work and light HTML/CSS. Built the foundation in visual hierarchy and typography before moving into UI/UX.
